Commenting on the performance, Rajiv Mody, Chairman & CEO, Sasken said, "The Sasken Group has delivered revenue growth of 55% and net profits have grown 93% for FY07 over FY06. The full year's EPS stands at Rs 15.75/-, a growth of 73%. Our services business has delivered 62% growth rate in revenues and crossed a significant milestone of \$100M in revenues for the full year. Our services EBITDA margins were at 22.5% for the Full Year. This is in line with the goals we had set for ourselves at the beginning of the year. One more of our key accounts has crossed \$20M in annual revenues, with a third account very close achieving that milestone. This further vindicates our Tier 1 strategy,"

"Our focus this year has been to set the platform for profitable growth going forward. To this effect, we have significantly strengthened our leadership team. We are also firming up plans for entry into some new customer segments, and looking at expanding our offering portfolio. The Sasken Group's focus continues to be the communications industry and we believe that we have the scale and the compelling value propositions to scale our business significantly," he added.

"We continue to track our products business on the basis of set milestones. The Design-In on the Application Framework Product with Lenovo Mobile is an important step forward for us. The NTT DoCoMo P903iX by PMC phone launch in April 2007 is another royalty-bearing engagement for us in the Japanese market. Going forward, we should see Design-Wins (phone launches) happen on the Multimedia Subsystem product with various customers, including a global Tier 1 customer, in the first quarter," Rajiv added.
