- 5) Exceptional income/expenses

During the previous year ended March 31, 2016, an arbitration proceeding was initiated by one of the customers of the Company and both parties had preferred certain claims. In March 2016, the two parties entered into a settlement agreement whereby both parties mutually agreed to stop the arbitration proceedings and the Company received a consideration of USD 45 million (equivalent to Rs. 29,812.50 lakhs) for assignment of its rights in the independently owned IPR and foreground information, which had been recognized as an exceptional item. Further, in relation to the above, a provision towards employee payments amounting to Rs. 2,100.00 lakhs and managerial remuneration amounting to Rs. 784.38 lakhs had also been recorded as an exceptional item.

In the previous year, the Company had evaluated certain long term investments for the purpose of determination of potential diminution in value of investments and based on such evaluation and determination, a provision for diminution in the value of investment as at March 31, 2016

amounting to Rs. 3,594.85 lakhs/Rs.3,633.85 lakhs, respectively, had been recorded as an exceptional item in the standalone and consolidated financial statements.

Sasken Inc., a wholly owned subsidiary, had evaluated its long term investment for the purpose of determination of potential diminution in value of investment and based on such evaluation and determination, a provision for diminution in the value of investment as at March 31, 2016 amounting to USD 5.064 million (Rs.3,393.98 lakhs) had been recorded as an exceptional item.

In the current year, the Company evaluated the utilization of the provision of Rs 2,884.38 lakhs made in the financial statements in March 2016. As payments were already been made to those associated with the Spreadtrum legal suit and that there are no further payments, the balance exceptional provision of Rs.2,025.00 lakhs was reversed and has been disclosed as exceptional item in the financial statements.

- 6) The Board of Directors at their meeting held on September 14, 2015 considered the amalgamation of Sasken Network Engineering Ltd., (SNEL) a wholly-owned subsidiary of the Company with Sasken Technologies Ltd (formerly known as Sasken communication Technologies Limited) to be effected through a Scheme of Amalgamation under the provisions of Section 391 to 394 and other applicable provisions of the Companies Act, 1956 or any other amendment or modifications made thereto, with Appointed Date for amalgamation as April 1, 2015. The Scheme was approved by the Board subject to requisite approvals from the relevant regulatory authorities and sanction of the High Court of Karnataka. After getting appropriate approvals, SNEL filed a petition in the Hon'ble High Court of Karnataka on April 30, 2016. When the case was pending, the Board of Directors recommended another round of Buy-back of shares in their meeting held on October 27, 2016, through tender-offer method, which was approved by the shareholders through postal ballot. Regulation 19(2) of SEBI (Buy back of Securities) Regulations, 1998 says that "no public announcement of Buy-back shall be made during the pendency of any scheme of amalgamation or compromise or arrangement". Meanwhile the Ministry of Corporate Affairs vide notification dated December 7, 2016 transferred all pending proceedings before the High Court to National Company Law Tribunal ("NCLT") effective December 15, 2016. In view of this, SNEL filed a memorandum in the Hon'ble High Court for withdrawing the petition with a liberty to revive the Scheme at the same stage at which it was withdrawn, within 12 (twelve) months from this date or 3 (three) months of closure of the buy-back proposed by the Company, whichever is earlier and this was permitted by the Hon'ble High Court of Karnataka with a liberty to file it afresh at appropriate stage, if so necessary and so advised. Post the completion of buyback of shares in March 2017 SNEL had filed an application for the recall of the Order of the Hon'ble High Court dated December 9, 2016 and transferring the said proceedings to the National Company Law Tribunal, Bengaluru Bench and the said application is under consideration of the Hon'ble High Court.
- 7) In terms of decision of the Board of Directors dated October 27, 2016 and in accordance with the provisions of Companies Act, 2013 and the Securities and Exchange Board of India (Buy-back) Regulations, 1988 and pursuant to approval of shareholders through Postal Ballot dated December 23, 2016, the Company had offered to buy-back 28,69,098 fully paid up equity shares of Rs.10 each, at a price of Rs. 410 per share for an aggregate amount of up to Rs. 11,763.30 lakhs from the existing shareholders of the Company under Tender Offer mechanism. The offer size was 24.49% and 25% of the aggregate paid up capital and free reserves (including securities premium account) as per the audited standalone and consolidated financial statements of the Company as on March 31, 2016 respectively. The offer was kept open from February 03, 2017 to February 16, 2017. 6,09,699 equity shares representing 21.25% of the offer size were bought back and these shares were extinguished on March 7, 2017.
- 8) The shareholders by way of Postal Ballot on December 23, 2016 had approved changing the name of the Company to "Sasken Technologies Limited" and the change was made effective February 14, 2017, on receipt of necessary approvals.

- 9) During the year, the Company completed its disinvestment of its holding of 1,44,73,846 fully paid-up equity shares of Rs.10 each in the capital of joint venture company, ConnectM Technology Solutions Private Limited.
- 10) The shareholders by way of Postal Ballot on December 23, 2016 have approved the proposal of creating Sasken Employees Share Based Incentive Plan 2016 not exceeding 5% of the paid up capital of the Company as of March 31, 2016, subject to approval of other regulatory authorities.
- 11) The Board of Directors have recommended a final dividend of Rs.4.50 per equity share of Rs.10 each for the year ended March 31, 2017. This is subject to approval of shareholders and if so approved, the total dividend for the year will amount to Rs.7.00 per equity share (including interim dividend of Rs.2.50 per share).
- 12) Previous period/year figures have been re-grouped/re-arranged, wherever necessary to conform to the current period's/year's presentation.

People

On the people front, the headcount for the Sasken Group stood at 1963 as of March 31, 2017. The ability to attract and retain talent continues to be of primal importance to us. We are making concerted efforts to engage and retain our talent to contain attrition, which currently stands at 17.70 % for trailing twelve months. We stand committed to ensuring that our talent pool is best equipped with knowledge of standards, technologies & platforms and is the best in class.

Utilization for the quarter averaged 78.60% and is expected to marginally improve in the coming quarters/ remain similar.

Customers

We have successfully added 8 new customers during the quarter taking the total number of active customers to 133.

I will provide key highlights in the Business Lines we operate in.

In both the Product Engineering and Digital Transformation Services arenas, there is considerable velocity in engineering/development spends. In keeping with our position of being a 'Chip to Cognitive' company, we are building several solutions that harness our unique expertise in silicon, embedded systems, connectivity, smart devices and analytics. Additionally, we are encouraged to bring to your attention that the verticals which we

service; Automotive, Semiconductors, Industrial, Consumer & Communication, are among the highest investors in creating technology led solutions.

In the **Automotive segment**, disruption is driven by the increased need for Autonomous Driving, Smart Infotainment, and Telematics. We continue to sharpen our focus in this segment and building on our portfolio of In-Vehicle Infotainment (IVI) solutions. Our expanded portfolio of Automotive offerings now addresses the need for autonomous driving. We have achieved a breakthrough in this area and are engaged with a Tier 1 OEM and provide services for their V2X platform, which is a core component of autonomous driving.

We have built a platform that aggregates data from multiple sources in an automobile and provides interesting insights through mobile apps and IVI. Our solution enables actionable insights from the petabytes of data generated in the connected automobile.

Industrial automation is a relatively new opportunity space identified by us. This sector has promising growth prospects for us, especially in the white spaces created by the collision of Infrastructure, Mobility, Analytics & Cloud. This then opens up the opportunity to provide solutions for industrial OEMS to target several verticals.

Our heritage in the **Semiconductors segment** has enabled us to build strategic and long-standing relationships with all leading semiconductor vendors. This unique strength places us at a position of advantage to work with market leaders in enabling the design and product conceptualization of platforms and derivatives targeting both existing and emerging segments. An example of this is our enhancement of an IoT platform on which we integrated speech recognition to support a rich set of new services.

The **Communication segment** continues to be dominated by smart devices. We are building on our leadership position as a provider of Product Engineering Services for the Android ecosystem. We have enabled several Smartphone OEMs as well as Rugged Industrial Device OEMs launch new devices as well as upgrade their existing devices to “Marshmallow” and “Nougat” releases of Android.

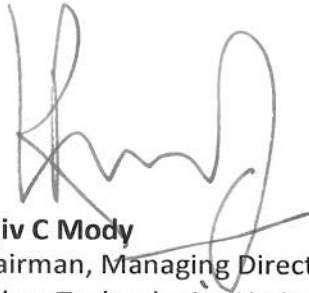

Our combined strength in hardware engineering and embedded software places us uniquely as one of the few organizations capable of providing turnkey full product design services for niche and differentiated communication devices. In the **Satellite segment**, with the gradual shift and adoption of LTE-based communication systems, we are seeing an increased demand for turnkey product development programs.

In the **Consumer segment (Retail)**, despite the proliferation of e-commerce platforms, and their ability to offer a host of conveniences, consumers still enjoy the ‘shopping experience.’ In response to this trend, Sasken is investing in solutions that are targeted for fashion, apparel retailers that leverage our pedigree in connectivity technologies to build compelling solutions for traditional retailers.

We are working on a number of development projects focussing on automotive and other related domains. We have helped an IoT platform vendor manage and control multiple devices by enhancing the protocols they can support. Our proven audio sub-systems have helped a Japanese/ European auto solution provider build state-of-the-art product.

We thank you for your interest in Sasken and your continued support. My team and I are committed to always hold all our stakeholders in trust.
