SEBI slaps ₹26-cr fine on Coffee Day as promoter firm diverted funds

SHADY DEALS. Also directs company to recover ₹3,535 crore from its promoter-related entity

Our Bureau
Chennai

SEBI on Tuesday imposed a ₹26-crore fine on Coffee Day Enterprises Ltd (CDEL) for failing to recover dues from a sister concern.

In a 43-page order, SEBI whole-time director, Ashwani Bhatia, has directed CDEL to recover ₹3,535 crore from Mysore Amalgamated Coffee Estates Ltd and its related entities along with due interest that are outstanding to the subsidiaries. These funds were diverted from the company and its seven subsidiaries causing losses to the shareholders, the order added. The notice (Coffee Day) should pay the penalty within 45 days of receipt of this order, he said.

According to regulator findings, VG Siddhartha, Chairman of the Coffee Day Group, had reportedly committed suicide in July 2019. "It was reported that he had left behind a suicide note dated July 27, 2019, addressed to the Board of Directors and Coffee Day family wherein he revealed that he was in deep debt."

INVESTIGATING BOOKS After Siddhartha's death, its board had engaged the services of Ashok Kumar Malhotra, retired DIG of Central Bureau of Investigation, and Agastya Legal LLP, in September 2019, to *inter-alia* investigate the books of accounts of CDEL and its subsidiaries. SEBI had also initiated an investigation on its own to ascertain whether funds were diverted to related

entities. Based on the findings contained in the report of Malhotra, submitted by CDEL to SEBI in July 2020, and the detailed SEBI investigation, di-

version of funds amounting to ₹3,535 crore from seven subsidiaries of CDEL to Mysore Amalgamated Coffee Estates, an entity related to CDEL pro-

motors, was revealed. SEBI had sent a show-cause notice to CDEL and directing it to recover ₹3,494 crore.

SLOW RECOVERY

According to Bhatia, of the total dues of ₹3,535 crore as on July 31, 2019, the subsidiaries have managed to recover only ₹110.75 crore till September 30, 2022 (within a period of over three years). "At this pace of recovery, there is no real possibility of the subsidiaries recovering money even in perpetuity. This also shows lack of interest on part of the Noticee and its subsidiaries to recover the dues."

CDEL, in consultation with the NSE, should appoint an independent law firm, of standing and repute, to take steps to recover dues, he ordered.

Sensex, Nifty trim gains to end almost flat amid volatility

Press Trust of India
Mumbai

Benchmark Sensex trimmed early gains to close marginally higher, while Nifty settled flat in choppy trade on Tuesday as gains in auto shares were offset by selling pressure in banking and energy stocks.

The BSE barometer closed slightly up 37.08 points to 60,978.75, with 15 of its stocks ending in green and the rest in red.

The index opened higher and gained over 300 points to a high of 61,266.06 in early trade. The index, however, dropped over 400 points from the day's high to touch a low of 60,849.12 due to selling in select counters.

Nifty closed flat at 18,118.30 with 29 of its shares ending in red and 21 in green.

The index touched a high

of 18,201.25 and a low of 18,078.65 in the day trade. "Mirroring robust global peers, the domestic market extended previous gains driven by auto stocks. However, due to selling pressure in banking shares, the indices anchored close to the flatline," Vinod Nair, Head of Research at Geojit Financial Services, said.

Auto stocks were in focus prior to the earnings results of the sector major Maruti Suzuki India. Hopes of a soft landing of the US economy along with the anticipation of a lesser rate hike boosted global bourses, Nair said.

Among major gainers were Tata Motors, Maruti Suzuki India, HCL Tech, HDFC twins, Asian Paints, IndusInd Bank, TCS and ITC.

Axis Bank, L&T, Reliance Industries, SBI, Kotak Bank, Tata Steel and Power Grid were major losers.

Mumbai

Airwat Indices, a joint venture firm founded by former SEBI Chairman M Damodaran and Decimal Point Analytics, has launched a new index ATOM (Airwat Touchstone MidCap Index), comprising 30 mid-cap companies listed on stock exchanges.

ATOM is a thematic index designed to serve investors seeking to invest in "well-governed mid-cap companies," the company said in a release.

The joint venture has selected these 30 mid-cap

companies from the Association of Mutual Funds in India list of 150 mid-cap stocks as the starting point of its scoring methodology.

Airwat Indices is also working on to launch an Universal Mid-Cap Index

and Laggard Mid-cap Index. While Universal Mid-cap index will comprise all listed mid-cap companies in India, Laggard index will have bottom 30 mid-cap companies based on financial and governance parameters.

Businesses built on a foundation of strong corporate governance principles and practices are far more likely to tide over adverse economic conditions. The financial crisis of 2008, leading to the decline and fall of several large institutions, resulted in corporate governance being at the centre of attention of institutional investors, said the company.

Emkay Global

KARUR VYSYA BANK (BUY)

Target: ₹155
CMP: ₹108.65
Despite higher provisions including hit on SR book, KVB reported a 13 per cent beat on PAT at ₹290 crore (vs est: ₹260 crore), mainly due to continued margin expansion, recovery from written-off accounts (₹89 crore) and lower effective tax rate (due to higher write-offs). As promised, the bank has brought down NNPA below 1 per cent (to 0.9 per cent), and expects incremental LLP to be lower; it thereby guides for exit RoA of 1.35 per cent in 4Q (1.3 per cent in Q3).

Overall gross credit growth was healthy at 16 per cent y-o-y/4 per cent q-o-q, while net credit growth at 16 per cent y-o-y/3 per cent q-o-q was due to higher write-offs. However, higher asset re-pricing of the MCLR portfolio led to 25-pp q-o-q improvement in NIMs at 4.3 per cent. The Board has extended MD and CEO Ramesh Babu's term (ending on July 29, 2023) for another three years, subject to approval by the RB.

KVB remains one of our top picks in the small banking space, given expected improvement in its RoA/RoE to a decadal high of 1.4 per cent/16 per cent, healthy capital ratios and emerging management credibility. We retain BUY, with a revised TP of ₹155, up from ₹125, and now value the bank at 1.2x Dec-24E ABV (vs earlier 1x Sep-24E ABV earlier).

YES Securities

TANLA PLATFORMS (BUY)

Target: ₹1,046
CMP: ₹670.75
Tanla Platform (Tanla) reported in-line financial performance for the quarter. It reported sequential revenue growth of 2.2 per cent q-o-q, led by 2 per cent increase in the revenue of enterprise business and 4.1 per cent q-o-q increase in revenue of platform business.

Trubloq processed 8,200 crore message in Q2 with more than 60 per cent volume market share. There was sequential increase in EBITDA margin (up 101 basis points q-o-q) as operating margin has started recovering after getting adversely affected in Q1-FY23.

It is a credible play on the rising demand for CPaaS solutions across industries for achieving enhanced customer engagement. Also, increase in smartphone penetration and greater regulatory push towards mandatory SMS alerts would drive CPaaS market. The adoption of CPaaS based A2P messaging across industries continues to drive volume growth for both enterprise and platform segments of Tanla. Rising share of higher margin platform segment would drive EBITDA margin of the company. We estimate revenue CAGR of 14.0 per cent over FY22-24 with average EBIT margin of 18.2 per cent over the period. We maintain our Buy rating with revised target price of ₹1,046/share based on P/E of 22x on FY24.

Gurumurthy K
bl_research bureau

The upmove in the stock of Sonata Software has gained momentum. The stock has surged over 5 per cent breaking above the key resistance region of ₹610. This strengthens the case to see more rise going forward. The region between ₹615 and ₹600 is a strong support zone which can limit the downside.

As long as the Sonata Software stock trades above ₹600, the outlook will remain bullish. The chances are high for it to move up towards ₹700 over the next two-three weeks.

Traders can go long at current levels. Accumulate on dips at ₹615.

Keep the stop-loss at ₹595. Trail the stop-loss up to ₹635 as soon as the stock moves up to ₹655. Move the stop-loss further up to ₹670 when the stock touches ₹680 on the upside. Book profits at ₹680
